

About Us

RAS Intellect Solutions Pvt. Ltd. Is a fast-growing intellectual property and innovation services firm dedicated to supporting India's evolving research and startup ecosystem.

Founded with a vision to go beyond transactional filings, the firm delivers execution-driven, strategy-led IP solutions that enable long-term innovation ownership and commercialisation.

With experience across startups, MSMEs, higher education institutions, and innovators – including ventures like Indivirtus Strategic Solutions, MetaSaga, Datence Technologies, Aligneye Vision, Pacific Labs, and more—RAS Intellect brings real-world IP expertise into everything it builds.

Introducing RASPREP

Patent Agent Exam Preparation Program

RASPREP is a structured, industry-backed program designed to help you crack the Indian Patent Agent Examination and build a high-value career in Intellectual Property.

Built by professionals actively working in the IP ecosystem, the program focuses on practical drafting, real case exposure, and exam-oriented preparation and not just theory.

*I've had a wonderful experience with RAS Intellect, and I'm thrilled with my decision to join their coaching program. The team, including Ruchi Mam, Anu Mam, Suryavanshi Sir, and Vanshika, are exceptional and extremely helpful. Their guidance has not only helped me learn a great deal but also sparked my interest in patent law. I'm grateful to the entire team for their support and appreciate the study materials they provide, which are concise and easy to study. Overall, Ras Intellect has been an outstanding learning experience, and I highly recommend it. ~ **Sheetal Sethia** (2025 Batch).*

RASPREP University Training Programs

RAS Intellect offers structured IP training and internship programs for universities through 1-week, 6-week, and 6-month formats. These programs cover IP fundamentals, patent searching, patent drafting, legal understanding, innovation awareness, and career readiness in the intellectual property domain. The modules can be delivered in virtual, hybrid, or offline mode and may also be customized as credit-based, vocational, or skill-development programs for students and faculty. This initiative supports universities in strengthening innovation culture, student employability, academic enrichment, and evidence-based contribution towards NAAC, NIRF and IIC-related research and innovation parameters.

How this supports Universities

- NAAC Criterion III: research, innovation, extension, skill development, and institutional innovation ecosystem.
- IIC activities: IP awareness, innovation training, patent search workshops, idea-to-IP mentoring, and entrepreneurship-linked activities.
- NIRF support areas: research culture, professional practice, IPR awareness, patent filing pipeline, and student/faculty innovation outcomes.
- Employability and academic enrichment: by creating technically trained students for IP, patent drafting, research analysis, and innovation-based career roles.
